About Me

I aim to attain an engaging position as a junior web developer. I am confident that my front-end and server-side knowledge will be a valuable add to your team. I am highly motivated to continue learning and broaden my skills.

Skills & Proficiencies

- HTML 5
- CSS 3
- JavaScript
- ReactJS
- PHP
- Bootstrap
- Git & GitHub

Soft Skills:

- Highly organized
- Strong work ethic
- Team work and collaboration
- Adaptability
- Strong Communication
- Customer Service

My Projects

- **Quotes Generator** - a simplified generator pulling random quotations from an API. **ReactJS**.
- **Markdown Previewer** - users can format text and generate different outputs. **ReactJS**.
- **Numbers Converter** - built for the use of converting digital numbers to roman numerals. **JavaScript**.

Work History

Operations Manager

Panarottis Claremont | January 2019 - November 2021

As a Restaurant Operations Manager, I oversaw all aspects of a food service business. My duties included hiring and training employees, coordinating work and schedules, developing working relationships with front and back of house staff, overseeing inventory ordering, and daily maintenance of equipment and the building.

Freelance Web Developer

Bev-Designs | Nov 2021 to Present

I develop responsive websites with a great UI. Specific responsibilities include discussing requirements, making website development proposals, designing page layout, content and code writing.

Professional Training

FreeCodeCamp

Certificate of Completion | **Front End Development Libraries || JavaScript Algorithms & Data Structures || Responsive Web Design**

Educational Background

All Souls High School | High School Diploma

ZGCE Advanced Level & ZGCE Ordinary Level
